

## Setting up Application Environment

### Docker CLI Installation

<b>Team ID</b>	PNT2022TMID36949
<b>Project Name</b>	Skill / Job Recommender Application
<b>Date</b>	20 October 2022

**Step 1:** Download Docker from [docker.com](https://docker.com) and install it by running the Docker Desktop Installer.exe file

**Step 2:** Go to [hub.docker.com](https://hub.docker.com) register and create an account and login with the same

The screenshot shows the Docker Hub website with the 'Choose a Plan' page. The top navigation bar includes links for Explore, Pricing, Sign In, and Register. The main header area has a large blue banner with the text 'Build and Ship any Application Anywhere' and a sub-header 'Docker Hub is the world's easiest way to create, manage, and deliver your team's container applications.' Below this, there is a registration form titled 'Get Started Today for Free' with fields for Username, Email, and Password, and checkboxes for product updates and terms agreement. The 'Choose a Plan' section is titled 'Choose a Plan' with the subtitle 'Select a plan to get started with Docker'. It displays three plans: Personal (\$0), Pro (\$5/month), and Team (\$7/user/month). The Team plan is highlighted with a blue border and labeled 'DEVELOPER FAVORITE'. Each plan includes a list of features and a 'Docker Desktop' icon.

Plan	Price	Features
Personal	\$0	Docker Desktop, Unlimited public repositories
Pro	\$5/month	Everything in Personal, plus: Docker Desktop
Team	\$7/user/month (minimum 5 seats)	Everything in Pro, plus: Docker Desktop

**Step 3:** Open Docker Desktop and start creating containers and images
